

E-Series Non-Belted Checkouts

The E-Series Non-Belted Checkout is a low-cost counter that offers exceptional value and flexibility. Small in size, yet large in performance, these “knock down” counters can be assembled in 30 minutes or less. Customers also realize significant cost savings with the E-Series “ship-in-a-box” design. Easy to transport, set up and disassemble, the E-Series counter is the ideal economical solution for any size retailer.

FEATURES

- Economical, “ship-in-a-box” design
- Reversible left- or right-hand set up
- Adapts to many configurations
- Customized bumper rail colors
- Counter surfaces available in various materials
- Multiple designs available
- Durable welded construction

The E-Series checkout stand is the ideal fixture for retailers with minimal floor space. The economical “ship-in-a-box” design reduces freight costs and allows for easy assembly.
