## Lyons Legacy Series

The Lyons Legacy checkout series is a new concept in the industry, designed to provide our customers with a unique checkout counter. By combining the strength of steel with the beauty and warmth of wood, Legacy checkstands provide the enhanced durability of our traditional products with a chic and stylish look and feel to enhance your store interior. The first model in the series, the LS1001, provides a scanned pass operation with a 36" rear module and multiple conveyor lengths and options.

### Standard Features:

- Scan and pass operation with 36" rear module
- Radius design
- Black plastic trim and bumper
- Standard 21" cashstand with wood security shield
- Optional keyboard and check shelf available
- Cashier lean pad
- Electrical outlets
- Next customer bars
- Corlon® deck

Lyons Store Fixtures has the experience and knowledge to provide customers with custom specialty solutions that address the most difficult retail fixture challenges. Our custom retail counters, including the Legacy Series, are designed to meet each retailer's specific requirements, and can be manufactured in custom colors and materials to complement and support your store branding and meet your specific needs.
